Q1) The bar graph below shows the production (in tons) of three crops: Wheat, Rice, and Maize over four years.

1) What is the average production of Maize over the four years?

- (a) 275 tons
- (b) 300 tons
- (c) 325 tons
- (d) 250 tons

2) What is the increase in production of wheat from 2020 to 2023?

- (a) 10%
- (b) 20%
- (c) 25%
- (d) 30%

Q2)

The bar graph given below shows the sales of books (in thousand number) from six branches of a publishing company during two consecutive years 2000 and 2001.

Sales of Books (in thousand numbers) from Six Branches - B1, B2, B3, B4, B5 and B6 of a publishing Company in 2000 and 2001.

1. What is the ratio of the total sales of branch B2 for both years to the total sales of branch B4 for both years?

- (a) 2:3
- (b) 3:5
- (c) 4:5
- (d) 7:9

2. Total sales of branch B6 for both the years is what percent of the total sales of branches B3 for both the years?

- (a) 68.54%
- (b) 71.11%
- (c) 73.17%
- (d) 75.55%

3. What percent of the average sales of branches B1, B2 and B3 in 2001 is the average sales of branches B1, B3 and B6 in 2000?

- (a) 75%
- (b) 77.5%
- (c) 82.5%

(d) 87.5%

4. What is the average sales of all the branches (in thousand numbers) for the year 2000?

(a) 73

(b) 80

(c) 83

(d) 88

5. Total sales of branches B1, B3 and B5 together for both the years (in thousand numbers) is?

(a) 250

(b) 310

(c) 435

(d) 560

Q3) The graph shows number of employees, market share (as % by number of units sold), and sale (in Rs. crore) for five companies A, B, C, D, E.

Select the CORRECT statement:

- (a) A has the highest market share per employee, C has the highest sale for its market share
- (b) C has the highest market share per employee, B has the highest sale for its market share
- (c) D has the highest market share per employee, E has the highest sale for its market share
- (d) A has the highest market share per employee, B has the highest sale for its market share

Q4)

Directions (1-5): Study the bar graph and answer the questions given below. The bar graph shows the milk collection by dairy (in litres) for five months January, February, March, April and May.

1) The milk collection by dairy in April was approximately what percentage of the average milk collection over the period under review.

- (a) 145.5%
- (b) 135.5%
- (c) 125.5%
- (d) 130%

2) For which month the percentage decrease in collection of milk by dairy over previous month, is maximum?

- (a) March
- (b) February
- (c) April
- (d) May

3) What is ratio of number of months in which milk collection is above the average milk collection to number of months in which milk collection is below the average milk collection?

- (a) 2:3
- (b) 3:2
- (c) 1:4
- (d) 4:1

4) What is the difference between average milk collection by dairy in January, April and May together and average milk collection by dairy in February, March and May together?

- (a) 540 liters
- (b) 480 liters
- (c) 840 liters
- (d) 450 liters

5) If the dairy procures the milk at the rate 50 Rs per litre. How much less/more amount spent by dairy to procure the milk in March as compared to February?

- (a) 6000 Rs less
- (b) 5000 Rs less
- (c) 6000 Rs more
- (d) 5000 Rs more
